- Team Player (Basketball, Netball and Church Youth Choir (Part Leader))

### Programming Languages

- SQL, VB.NET and Python (Proficient)
- Java, C, HTML/CSS/JavaScript, and Haskell (Familiar)

## EXPERIENCE

### Customer Assistant

*Primark*

Start Date to  
End Date

- Had the responsibility to work on the shop floor and at the tills. Customer will frequently question me on things, so I always had to be prepared to communicate effectively with them, this also taught me patience.

### Learning Ecosystem Integration and Automation Intern

*Ericsson*

Start Date to  
End Date

- Working in the internal Learning and Development department. My role focuses on automation and integration on systems (including learning platforms), to make learning material easier to access for employees in the company.
- Allowed my confidence to increase and developed communication skills in a corporate environment, allowing me to express my thoughts and ideas. Worked with APIs and tools such as Alteryx, Postman, and BMC Helix.
